

Performance

review 2008 – key data by region

South Africa

The seven deep-level AngloGold Ashanti operations and one surface operation in South Africa employed around 37,000 people (including contractors) and produced 2.1 million ounces of gold, equivalent to 42% of group production. At year-end, South African Ore Reserves totalled 33.7 million ounces.

Africa (excluding South Africa)

AngloGold Ashanti has eight gold mining operations in Africa (excluding South Africa) – two in Ghana, one in Guinea, three in Mali, one in Namibia and one in Tanzania. Combined, these operations employed around 16,000 people (including contractors) and produced a total of 1.6 million attributable ounces of gold, equivalent to 33% of group output. Ore Reserves at these operations amounted to 23.0 million ounces at year-end.

Australia

AngloGold Ashanti has one operating gold mine in Australia being Sunrise Dam. Approximately 1,200 people (including contractors) were employed in Australia at year-end and 433,000 ounces of gold, equivalent to 9% of group output, were produced. Ore Reserves amounted to 8.6 million ounces at year-end.

North America

AngloGold Ashanti has one operating gold mine, CC&V, in the United States which employed approximately 400 people (including contractors) and produced 258,000 ounces, equivalent to 5% of group output. Ore Reserves amounted to 4.9 million ounces at year-end.

South America

AngloGold Ashanti has three gold mining operations in South America – two in Brazil and one in Argentina – which combined employed around 5,200 people (including contractors) and produced a total of 561,000 attributable ounces, equivalent to 11% of group output. Total Ore Reserves at these operations amounted to 4.8 million ounces at year-end.
