RESPONSIBLE SOURCING
GLOBAL SUPPLIER
SELF-ASSESSMENT QUESTIONNAIRE

SUPPLIER GUIDANCE

There has been increasing pressure both at the global and local levels from consumers, customers, investors, NGOs and governments for mining companies to effectively monitor and manage their sustainability impacts, which comprise economic as well as environmental, social, and governance (ESG) impacts and that they must ensure their suppliers are doing the same.

Various countries continue to introduce and enforce anti-bribery, anti-corruption and human rights legislation that under certain circumstances could impute legal responsibility on mining companies for the actions and the conduct of their suppliers. As such, more and more companies are engaging suppliers on these issues, encouraging integration of ESG sustainability standards into core decision-making and implementation of leading practices for improving supply chain sustainability performance. This has led to a proliferation of initiatives aimed at supplier self-assessments, some of which you as a supplier may have experienced already.

Our intent with this Self-Assessment Questionnaire (SAQ) is to offer a harmonized approach to Responsible Sourcing, allowing you to demonstrate the important steps you as a supplier are taking to effectively identify and manage ESG risks and opportunities.

The SAQ herein in itself, is not a means to an end, but rather the first step in the development of a constructive dialogue between you and us your customer, in this important topic in our business. Suppliers are encouraged to respond candidly and completely to the questionnaire, establishing a true baseline of ESG practices and management from which future performance improvements and impact can be tracked, measured, and communicated.

Should you have any questions to clarify the requirements of the SAQ herein, please contact Lindi Maqubela, from Group Legal, Ethics & Compliance on email address imaqubela@anglogoldashanti.com

The SAQ asks you to collect information on the following topics:
